PROJECTS

File Organizer

Key Skills: Python   Data Analysis

Project Link: https://github.com/Kingcoder0319/File-Organizer#file-organizer

This Python code organizes files in a specified directory based on their file extensions and moves them to appropriate folders. It is a helpful utility to keep your downloads folder or any other directory organized. To run this script, you need to have Python installed on your system. The script is compatible with Python 3.x.

Text-to-Speech Converter

Key Skills: Python   Github

Project Link: https://github.com/Kingcoder0319/Text-To-Speech/tree/main#text-to-speech-converter

Reads text from a file and converts it into speech.
Saves the generated speech as an MP3 file.
Plays the speech using the default audio player on the system.
